

Plot and Denouement

Directions: Roll two ten-sided dice and re-roll any "0"s. Read the resulting roll as a 2 digit number (an 8 and a 4 become 84). Then use the table below to find out what will set up the plot for your short story. The tens place is vertical and the ones place is horizontal, so 38 would be read as 3 down and then 8 across, thus producing "A car race through flames" as your result.
